

MORNING APPEAL.

Saturday, July 17 1886

DON'T WANT THEM TO GO.

The Carson APPEAL appeals earnestly to the Anti-Chinese League of that place to buy out a Chinese vegetable ranch near town for \$40, and allow the Chinaman to leave the country. The vegetables now growing are well worth the money and another long-tailed heathen can thus be easily got rid of. It is a good scheme. By judicious manipulation the members of the League might thus get their own vegetables free.—Enterprise.

But there are certain men in the League who do not want the Chinese out of here.

The editor of the APPEAL made the proposal to the League some weeks ago that each man give one dollar per month and buy the Chinese out. We felt that there would be strenuous objections raised to this course by men who did not want the Chinese to go.

The surmise was correct. A leading Democrat got the floor and pronounced such a scheme "Utopian." A number of other speakers took up the cue and all pronounced against it. These men did not dare to openly vote it down, but avoided the issue by having it referred to the Executive Committee.

The action demonstrated to the mind of the writer that a few dissatisfied politicians were making use of the anti-Chinese agitation to manufacture political capital. The men who have fought every practical common sense scheme to get the Chinese out of Carson are all Democrats and Mugwumps without exception. The animus of the scheme is clear as glass. Their love for white labor, which they seldom have any use for, and their hatred for the Chinese is a little political masquerade and everybody sees through it. They secured arms, ammunition and supplies to fight the Chinese and now are turning their guns against the Republican party in Ormsby county and the business interests of Carson City.

They have bungled in the draw, overplayed their hand and made a big bluff on one pair. Their insincerity and cunning is so patent to everybody that their action is a boomerang which will strike them heavily in the election. As they have sowed so shall they reap.

—The Chicago Current lashes Congress for its cowardice in not calling upon its Commissioners, sent to investigate the St. Louis strike, to report. Why should the Current single out that particular case? It says the action of the House in ordering the Commission was prompt only because the alarm of the body—lest all the Knights of Labor might be brought into the trouble—was great. Now the alarm having subsided, the House does not care for the report. Is there anything strange in all this? When has the Current ever seen Congress on its own volition, perform a splendid act? The rule is that when Congress passes a meritorious bill, we may know that public opinion has crystallized on the matter six months or a year in advance of the act, and forced Congress to do its duty.

—"What is that bicycle man doing? See! he has jumped forward from his wheel and is putting his face to the earth. Is he kissing it?" "No, my son; the man has his ear to the earth. He is listening. He thought he heard something drop."

—John Dennis was so "cut up" because Senator Fair could not control the appointment of S. S. Sears of the Elko Independent as Indian Agent at the Malheur Reservation and because it fell to a Tennessee man, that he retired from the editorship of the Tuscarora Times-Review and now it is a Republican paper.—Elko Independent.

—The President has been looking into the kitchen affairs at the White House and has vetoed his butter bill. For sixteen years the supply of butter has been furnished the White House direct from the manufacturers in Delaware county, but the President found he could buy it "cheaper in the open markets," and it is now asserted he saves over "six bits a week" on butter alone.—Enterprise.
